

REMARKS

The above corrected section which lists the pending claims of the application with corrected status identifier obviates the Notice of Non-Compliant Amendment dated November 14, 2008. Specifically, the status identifier provided with claim 8 is corrected herein to "(previously presented)". Amended claim 27 and new claim 32 also appear with corrections made herein which are believed to be insubstantial and do not affect the reasons supporting their patentability. In conformity with the remarks submitted in the amendment dated July 18, 2008, claim 27 is corrected to recite that the BOX layer has a first mini-breakdown voltage "greater than about~~of at least~~ 75 volts". Claim 32 is corrected to state that it depends from claim 31 rather than claim 21 which was previously canceled.

Reconsideration of the application as amended is respectfully requested in view of the corrected claims section herein, and the remarks provided in the originally filed amendment dated July 18, 2008 and the supplemental amendment dated July 19, 2008.

It is believed that no fees are required in connection with the filing of the present communication. However, if any fee is due in this connection, authorization is granted to debit the Deposit Account No. 09-0458 of the Assignee. If there is an overpayment, please credit the same account.

Respectfully submitted,
Joel P. DeSouza et al.
